

```
# CareNova - PM Login Flow & Study Management

## Document Version
- **Version:** 1.0
- **Date:** December 2024
- **Based on:** PM Login Flow Wireframes (4 pages)
```

1. Navigation Structure

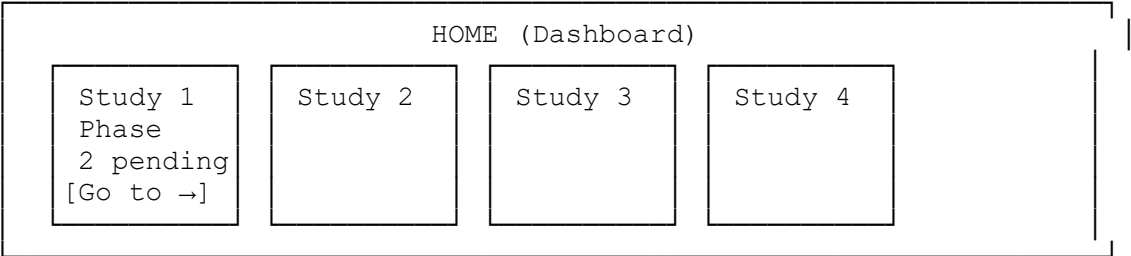

Primary Sidebar Navigation

Item	Icon	Description
Home		Dashboard with study overview cards
Studies		List of all studies
Tasks		Task management & assignments
Access		User access & permissions management
Settings		Application settings

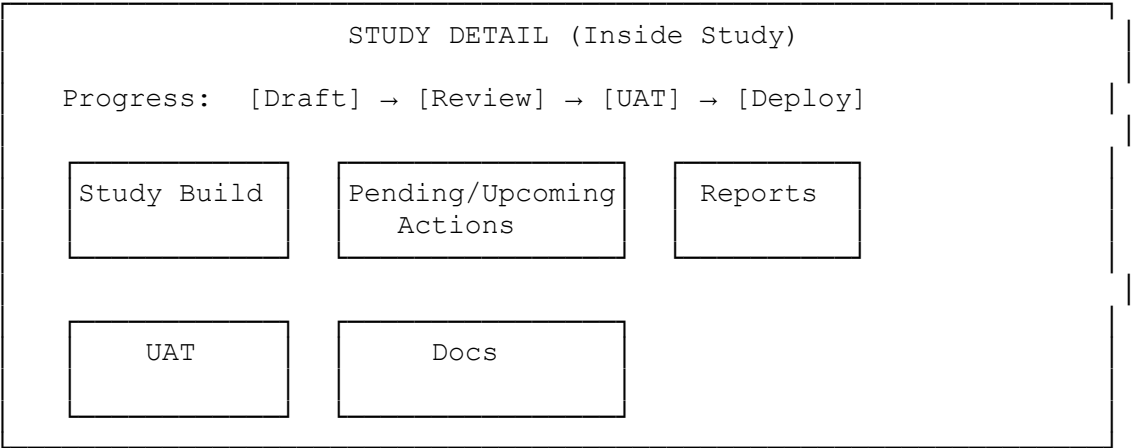

- ### Header Components
- **Left:** Hamburger menu (≡) for sidebar toggle
 - **Center:** Company Name / Logo
 - **Right:** User profile avatar with dropdown

2. Screen Flow Hierarchy

...

↓
▼ (Click "Go to Study")

...

3. Study Detail - 5 Main Sections

3.1 Study Build

Purpose: Manage all forms within the study

Column	Description	Example Values
Form Name	Name of the form	Form 1, Form 2, Form 3, Form 4
Status	Current workflow status	Review, Finalized, Pending Sig
Pending From	Team member(s) action required	M1, M3, "sent to M1, M3"
Actions	Button to change status	Status change dropdown

Form Status Workflow:

Draft → Review → Finalized → Pending Signature → Approved

Screen Layout:

Company Name			
Form Name	Status	Pending From	Actions
Form 1	Review	Pending from M1	[Change]
Form 2	Review	Pending from M3	[Change]
Form 3	Finalized	—	[Change]
Form 4	Pending Sig	sent to M1, M3	[Change]
* Last column to change status			

3.2 Form Preview (When clicking a form)

Purpose: View and collaborate on form screens

Three-Panel Layout:

Company Name		
S I D E B A R	Screen Preview	Comment Section
	Screen 1	[Add comment...]
		Tag
		[@Member1] [@Member2]
		Members
		Member 1

		 Member 2
[Option to Change Status]		

...

```

**Features:**
- Screen navigation (Screen 1, Screen 2, etc.)
- Comment thread for collaboration
- Tagging team members
- Member assignment panel
- Status change option at bottom

### 3.3 Pending/Upcoming Actions
**Purpose:** View all pending tasks and upcoming deadlines

**Content:**
...

```

Pending Actions
 Pending Sig on Form 1  Ongoing review of Form 2 ...

...

```

**Item Types:**
- Pending Signatures
- Ongoing Reviews
- Upcoming Deadlines
- Blocked Items

### 3.4 Reports
**Purpose:** Access all study reports

**Available Reports:**
| Report Type | Description |
|-----|-----|
| Audit Trail | Complete audit log of all actions |
| User Report | User activity and access report |
| Form 1 Report | Submission data for Form 1 |
| Form 2 Report | Submission data for Form 2 |
| Compliance Report | Regulatory compliance status |

**Screen Layout:**
...

```

Reports
 Audit Trail [Download] [View]  User Report [Download] [View]

 Form 1 Report	[Download] [View]
 Form 2 Report	[Download] [View]
✓ Compliance Report	[Download] [View]

...

```

### 3.5 UAT (User Acceptance Testing)
**Purpose:** Manage UAT process, test scripts, and validation

**Table Structure:**
| Column | Description |
|-----|-----|
| Item | UAT artifact name |
| Status | Current status |
| Assigned | Team member(s) assigned |

**UAT Items:**
| Item | Status | Assigned |
|-----|-----|-----|
| Issue Log | In Progress | M1 |
| Test Script 1 | Complete | M2 |
| Test Script 2 | Pending | M1 |
| Validation Report | Draft | M1, M2, M3 |

**Screen Layout:**

```

UAT		
Item	Status	Assigned
 Issue Log	In Progress	M1
 Test Script 1	Complete	M2
 Test Script 2	Pending	M1
✓ Validation Report	Draft	M1, M2, M3

...

```

### 3.6 Docs (Documentation)
**Purpose:** Store and access all study documentation

**Document Types:**
| Document | Description |
|-----|-----|
| Study Requirement | Study protocol and requirements |
| Site User Guide | Instructions for site personnel |
| Patient User Guide | Instructions for patients |

**Screen Layout:**

```

--

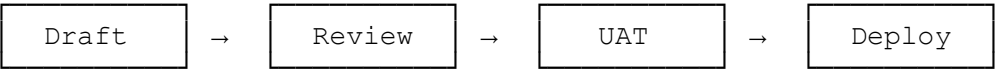

Docs			
	Study Requirement	[Download]	[View] [Edit]
	Site User Guide	[Download]	[View] [Edit]
	Patient User Guide	[Download]	[View] [Edit]
[+ Upload New Document]			

...

4. Study Workflow Progress

Progress States

...

...

Stage	Description	Entry Criteria	Exit Criteria
***Draft**	Initial form building	Study created	All forms drafted
***Review**	Internal review & approval	Forms drafted	All forms approved
***UAT**	User acceptance testing	Forms approved	UAT complete, issues resolved
***Deploy**	Production deployment	UAT passed	Study live

5. User Roles & Permissions

Role Types (M1, M2, M3 referenced in wireframes)

Role	Permissions
M1 (Admin)	Full access, final sign-off
M2 (Manager)	Review, approve, assign
M3 (User)	View, comment, complete tasks

6. Key Interactions

6.1 Status Changes

- Available at form level (Study Build)
- Available at screen level (Form Preview)
- Triggers notifications to assigned members

6.2 Tagging & Comments

- Tag members in comments: @Member1
- Notification sent to tagged members
- Comment history preserved

6.3 Assignments

- Assign forms to team members
- Track pending actions by assignee
- Filter views by "My Tasks"

7. Component Mapping

Wireframe Element	React Component	Route
Home Dashboard	`<DashboardPage>`	`/dashboard`
Study Cards	`<StudyCard>`	-
Study Detail	`<StudyDetailPage>`	`/studies/:id`
Progress Bar	`<WorkflowProgress>`	-
Study Build	`<StudyBuildPage>`	`/studies/:id/build`
Form Preview	`<FormPreviewPage>`	`/studies/:id/forms/:formId`
Pending Actions	`<PendingActionsPage>`	`/studies/:id/actions`
Reports	`<ReportsPage>`	`/studies/:id/reports`
UAT	`<UATPage>`	`/studies/:id/uat`
Docs	`<DocsPage>`	`/studies/:id/docs`

8. Data Models

Study

```
```typescript
interface Study {
 id: string;
 name: string;
 phase: string;
 status: 'Draft' | 'Review' | 'UAT' | 'Deploy';
 pendingCount: number;
 forms: Form[];
 members: Member[];
}
```
```

Form

```
```typescript
interface Form {
 id: string;
 name: string;
 status: 'Draft' | 'Review' | 'Finalized' | 'Pending Sig' | 'Approved';
 pendingFrom: string[]; // Member IDs
 screens: Screen[];
 comments: Comment[];
}
```
```

UAT Item

```
```typescript
interface UATItem {
 id: string;
 name: string;
 type: 'issue_log' | 'test_script' | 'validation_report';
}
```

```

 status: 'Pending' | 'In Progress' | 'Complete';
 assignedTo: string[]; // Member IDs
 }
 ...

```

```

Document
```typescript
interface StudyDocument {
  id: string;
  name: string;
  type: 'requirement' | 'site_guide' | 'patient_guide' | 'other';
  url: string;
  version: string;
  updatedAt: string;
}
...

```

9. API Endpoints (Suggested)

Endpoint	Method	Description
/api/studies	GET	List all studies
/api/studies/:id	GET	Get study detail
/api/studies/:id/forms	GET	List forms in study
/api/studies/:id/forms/:formId	GET	Get form detail
/api/studies/:id/forms/:formId/status	PATCH	Update form status
/api/studies/:id/actions	GET	Get pending actions
/api/studies/:id/reports	GET	List available reports
/api/studies/:id/uat	GET	Get UAT items
/api/studies/:id/docs	GET	List documents

10. Next Steps

- ☒ Document flow (this document)
- ☐ Update sidebar navigation
- ☐ Create Study Detail page with 5 tiles
- ☐ Build Study Build table component
- ☐ Build Form Preview with comment panel
- ☐ Build Pending Actions list
- ☐ Build Reports page
- ☐ Build UAT management page
- ☐ Build Docs management page
- ☐ Implement workflow progress indicator

Document generated from PM Login Flow wireframes
