

Designer Flow Documentation

This document describes the UI flow and screens for the Designer module of the Orchestration Platform for Pharma.

1. Login & Dashboard

1.1 Post-Login Dashboard

After successful login, the user lands on the main dashboard.

Layout:

Component	Description
Header	Company Name + Profile Icon
Left Sidebar	Navigation menu
Main Content	Studies table

Left Sidebar Navigation:

- Studies
- Translations
- Library
- Settings

Studies Table Columns:

Column	Description	Example
Assigned Studies	Study name	Study1, Study2, Study3
Ongoing Tasks	Current task phase	Design, Review, UAT
Study State	Current state	Draft, Draft, UAT
Last Modified	Date of last modification	DD-MMM-YYYY

2. Studies Screen

When user clicks on **Studies** from the sidebar.

Layout:

Component	Description
Header	Company Name + Profile Icon
Left Sidebar	Stud, Team, Library, Settings
Main Content	Studies list table

Studies List Table Columns:

Column	Description	Example
Study Name	Name of the study	Study 1
Study Code	Unique study identifier	S1
Ongoing Tasks	Current task phase	Design
Last Modified	Date of last modification	16-Dec-2025

Action: Clicking on any study row navigates to the Study Details screen.

3. Study Details Screen

When user clicks on any study from the Studies list.

Header Section:

Field	Position	Description
Study Name	Left	Display study name
Study Code	Left	Display study code
Protocol ID	Right	Protocol identifier
Version	Right	Auto-populated version number

Action Buttons:

Button	Description
Create New Form	Opens Form Builder to create a new form
Edit Existing Form	Opens list of existing forms
Create/Edit Visit Schedule	Opens visit schedule editor
Add Languages	Opens language configuration
Notes	Opens designer notes

4. Form Builder (Create New Form)

When user clicks **Create New Form** button.

Layout:

Section	Position	Contents
Toolbar	Left	Form building tools
Canvas	Center	Drag-and-drop form design area
Properties Panel	Right	Configuration options

Left Toolbar Elements:

- Undo (↶)
- Redo (↷)
- Document icon
- TEXT (Text input field)
- VAS (Visual Analog Scale)
- Likert (Likert scale)

Right Properties Panel:

- Validation Rules
- Branching

- Logic

5. Edit Existing Form

When user clicks **Edit Existing Form** button.

Form List Table Columns:

Column	Description	Example
Form Name	Name of the form	Form 1, Form 2
Version	Form version	V0.1, V1.0
Last Modified	Date of last modification	16-Dec-2025, 10-Dec-2025
Modified By	User who last modified	P.P., F.B.

Action: When any form is selected, the Form Builder will open with that form loaded for editing.

6. Add Languages

When user clicks **Add Languages** button.

6.1 Study Selection Screen

Column	Description
Study Name	Name of the study
Study Code	Study identifier
(Additional columns)	Other study details

6.2 Language Configuration Screen

Table Columns:

Column	Description	Example Values
Country	Country code/name	C1, C2
Language	Language name	Eng, Man, Hindi
Lang. Code	Language code	en_US, In_Ma, In_Hi
Status	Approval status	Approved, Draft, Review
Add New	Button to add new language	[Add New]

Status Values:

- **Approved** - Language is approved and active
- **Draft** - Language is in draft state
- **Review** - Language is under review

Add New Functionality: When clicked on **Add New** button, a list of available languages from the **Translations** tab will be opened to add.

7. Designer Notes

When user clicks **Notes** button.

Notes List:

Note	Actions
Note 1	Edit
Note 2	Edit
Note 3	Edit
...	...

Each note has an **Edit** button to modify the note content.
